In A Fun Way to Learn to Crochet for Kids there are 32 pages filled with great visuals and instructions that children can easily follow. The book begins with telling kids what they need to crochet - their hands, a hook and some yarn. It then goes on to talk about the hook and what each part of the hook is called so that they can understand how it works. Then we move on to visuals on how to hold the hook and the different names of each kind of hold.

For each crochet stitch or technique, an actual-size drawing is presented so that the child can place her work on the drawing to be sure that what she is doing is correct. Kid-friendly explanations and instructions accompany the illustrations. After learning the basics, children are invited to practice their new skills on five simple projects: In a Hurry Headband, Sacks for Your Stuff, Tablet or E-Reader Sack, All Stripes Scarf, and Roll-Up Holder for Your Hooks or Pencils.
