Cabinology doesn't just guide you, it keeps you inspired. Throughout are photos of cabins small and large, great details and design tips, stories from other cabin owners around the country, and clever insights into getting a cabin of your own.

With Cabinology as your map and architect and cabinologist Dale Mulfinger as your guide, you'll know the best way to approach every decision, from choosing a site to building a cabin. You know it would. If you have a cabin dream, this book is your ticket to making it real.

Cabinology especially breaks down the process of either building a cabin from scratch on a piece of land you bought, restoring one or adding onto one. For dreamers as well as for practical doers, Cabinology is one book which I go back frequently to and which holds a special place in my heart. I know you will enjoy it too. Good luck in realizing your dreams.
