I love that it has a variety of vegetables and fruits for the letters of the alphabet. There were some I didn't recognize but that just means I'll have to find them and try them! My 2 month old loves to look at the colorful pictures when I read it to her. Hopefully it will encourage her to try lots of different food as she gets older.

A really lovely book with beautiful illustrations. I am using it as part of a healthy eating topic with my class and they love recognising the food as well as discovering new exotic fruits and veg.
