Safe, Toxic, & Unsafe Foods - Provides a list of fresh foods which are safe to provide to finches in moderation, as well as a list of unsafe foods which should be avoided. Preparing an Egg-Mix & Other Soft Foods - Includes instructions for making an egg-mix and recipes for other healthy supplements.

How many birds will fit in your cage? As a general rule, 3-4 square feet of floor space is required per pair of finches. If you know the dimensions (in inches) of the cage you are considering placing birds into, you can use the calculator below to find out how many birds your cage may comfortably house.
