You might as well slam your head on the garden gate if you intend to build a shade garden and have no idea of the nature of your shade trees. Gardeners soon discover that shade gardening means gardening with spring blooming plants, and sure enough, most of the plants in Cramer's photos were taken in spring when the leaves are missing from the trees.

There are few flowering plants that like shade of summer, so think green if you intend to garden in the shade. Shenk's book is for the intimate garden, one on a small parcel of land. He devotes a good deal of space to plants--about 200 pages. Cramer's book contains some discussion of plants, but her plants are mostly suited to her Pennsylvania garden.
