"The computer world is like an intellectual Wild West, in which you can shoot anyone you wish with your ideas, if you're willing to risk the consequences. " --from Hackers & Painters: Big Ideas from the Computer Age, by Paul Graham

Rob Malda (Creator & Director/Slashdot) Paul Graham's Hackers & Painters is one diverse book, but it doesn't matter if you're learning why nerds get beat up in high school, or the subtleties of language design and acceptance.

A hacker and painter himself, Paul Graham, designer of the new Arc language, was creator of Yahoo Store, the first web-based application. In addition to his Ph.D. in Computer Science from Harvard, Graham also studied painting at the Rhode Island School of Design and the Accademia di Belle Arti in Florence.
