I ordered this coloring book for my grandma. She is 95 and enjoys coloring, it gives her something to do and is relaxing for her as well. Her favorite flower in the world is roses, so I thought she'd enjoy this which she did, but I'd have to agree with other reviewers, I wish the designs were not printed on both sides of the page.

I love a good coloring book, folks. I loved to color when I was a little girl, and I still love to color now. There's something incredibly relaxing about coloring.

Lots of tingles! Tapping, scratching, page turning, colored pencil sounds, marker sounds, whispers, story telling, and much more! Enjoy :) ~~~~~ ~SOCIALS~
