So you think you can cook? 14,403 likes · 75 talking about this. send me your food pics and ill put them up ... This is the page where you can show off...

The most common reason to convert a PSD file is probably so you can use it like a regular image file, like a JPG, PNG, BMP, or GIF file, perhaps. That way you can upload the image online (many sites don't accept PSD files) or send it over email so it can be opened on computers that don't use PSD openers.

"Yan Can Cook, So Can You!" has always been the motto of Martin Yan, chef extraordinaire and popular television host recognized from Shanghai to San Francisco. Promoting Chinese cuisine, making it easy for the cook and tasty for the guests has been his life-long mission. Born in Guangzhou in Southern China, Chef Yan is technically a second generation 'culinarian,' who was first inspired by his mother in the tiny kitchen of their family restaurant.

Yan Can Cook is a Chinese-oriented cooking show starring Chef Martin Yan that featured recipes for stir-fried foods and an assortment of various other traditional Chinese meals and cooking techniques.
