

Download Safety Bicycle Shire Library

The safety bicycle, with front-wheel steering and pedal-driven rear wheel, has existed in some form since the experiments of Kirkpatrick Macmillan in 1839, but his ideas were almost forgotten when the front-wheel driven boneshakers and penny farthings reigned supreme.

Record your bicycle details below using the Shire of Northam Bicycle Identification Card and file it away. If your bicycle is ever stolen you can provide this card to the Police and increase the chance of your bicycle being returned to you.

Online Databases Information at your fingertips. Parkes Shire Library provides free access to many online databases to use from the Library and from home.

Ignite your imagination at Indigo Shire libraries. Discover new worlds, learn something new and connect to your community all through your local library.

Hornsby Shire Council is developing a long term vision for the Shire that will identify Hornsby Shire's special characteristics and the values that are to be preserved and how change will be managed into the future.

Road Safety Leeton Shire Council is committed to road safety around Leeton Shire. Council has a Road Safety Officer (RSO) who is responsible for promoting road safety awareness and contributing to improved road safety outcomes by developing and delivering behavioural education programs and influencing the construction of infrastructure to improve road user safety.

About Indigo Shire. Find out more about our Shire and the benefits of living here.

A safety bicycle (or simply a safety) is a type of bicycle that became very popular beginning in the late 1880s as an alternative to the penny-farthing ("ordinary") and is now the most common type of bicycle.

Search the catalogue of Hornsby Shire Council's four libraries in Hornsby, Pennant Hills, Berowra and Galston.

Located on the corner of Castle and Pennant Streets, Castle Hill.
